When you get to the Moundville Museum website, scroll down to the bottom and "tour" the museum by looking at the pictures. Get a good look at image 9, 15, and 22 (image numbers are in the bottom left corner of the picture). Use your pottery "Ceramic Calendar" to identify what time period the pots in those pictures are from. Record your best guess on the lines below!

The Dirtbrothers' Alabama Arrowheads website shows pictures of arrowheads found at or near Moundville. Look at your Indian Arrowheads of Alabama Sheet to identify what kind each arrowhead is, and record your best guess below! Underneath each picture, there is information about where the arrowhead is from. If there is a blank on this sheet, record where the arrowhead is from, too.
